Are you at risk for ARMD (Age Related Macular Degeneration)

The top five risk factors for ARMD:

- Being over the age of 60 years
- Having a family history of ARMD
- Cigarette smoking
- Obesity
- Hypertension

If you have any two of these risk factors, you should schedule an appointment with a retina specialist for a complete evaluation.

“Obstacles are those frightful things you see when you take your eye off your goal.”

– Henry Ford

Know your Retinal Surgeon at Shroff Eye – Dr. Rahul Shroff

A Vitreo-retinal Surgeon, his area of expertise lies in the management of retinal disorders such as retinal detachments, diabetic retinopathy, age-related macular degeneration (ARMD), retinal vascular disorders and vitreous surgery. His expertise stems from training he received at Sankara Nethralaya, Chennai.

Shroff Eye Opener® # 53

Don't splash water inside your eyes, as is a habit for some people. This washes away the tear film that is a protective layer and can cause 'dry eyes' in the long run.

A testimonial from one of our cataract patients

“I wanted to implant a multifocal lens in my eye, a recent development in cataract surgery.

In USA this treatment is expensive with a long waiting period.

Shroff Eye Hospital in Mumbai offered me the same technology and expertise at a very reasonable cost.

My surgery took only 20 minutes and I gained supervision sight with a saving of 92% of the cost in USA”.

**Happy
Shroff Eye Patients**

Shroff Eye Hospital is India's first eye hospital to be accredited by JCI – Joint Commission International, USA for excellence in patient care and health care delivery
