What's New at Shroff Eye?
Customized Cataract surgery at Shroff Eye
- Tailored to the patient’s needs
- Less dependence on spectacles
- Faster healing and visual recovery
- Helps patients resume work early.
- Newer advanced lenses – Crystallens®, Restor®, Rezoom®, Multifocal Toric lenses

Celebrating the 100th Crystalens® cataract surgery at Shroff Eye
Shroff Eye is the only eye hospital in Western India to have crossed this milestone

Don’t just leave a Will... Leave a Vision
Shroff Eye Opener® # 91
Today, during eye donation, instead of the earlier practice of removing the whole eyeball from a deceased person, only a portion of the surface of the eye (cornea) is removed.

4 Generations of Patients
50,000 and more patients treated in last 10 years
90 Years of Excellence in Eye Care
LASIK 
(Laser-Assisted In-Situ Keratomileusis)

Laser eye surgery is a procedure that corrects certain vision problems, reducing or eliminating the need for eyeglasses or contact lenses. LASIK changes the shape of your cornea — the dome-shaped transparent tissue at the front of your eye. The goal of LASIK is to produce clearer, sharper vision.

At Shroff Eye we can treat myopia as high as -12.00D and astigmatism up to -6.00D safely (depending on your corneal thickness).

Know your LASIK Surgeon at Shroff Eye
– Dr. Anand Shroff

• His area of specialization includes the management of cataract, glaucoma and refractive surgery (LASIK)

• 15 years of experience in Wavefront-guided LASIK

• Performed over 15,000 treatments and continuing. First and only doctor in India to use the Concerto 500 Hz laser, the current technology available at Shroff Eye.

Testimonial from one of our LASIK patients

“I started wearing specs when I was 7. I got my Epi Lasik done when I was 36. And after 29 years of poor vision, just 15 minutes of Epi Lasik has given me a new eyesight and a new vision. I would like to thank Shroff Eye Hospital, Bandra, Mumbai for their expert guidance and amazing support. Epi Lasik has given me a whole new way of living life. I would recommend Shroff Hospital to all those who want freedom from specs.”

Shroff Eye Hospital is India’s first eye hospital to be accredited by JCI – Joint Commission International, USA for excellence in patient care and health care delivery since 2006.
