## Glaucoma

**Do red eyes mean more than allergy or infection?  
... you could have GLAUCOMA and not know it.**

You are at risk if you:

- are older than 60 years of age
- have a family history of glaucoma
- have diabetes, heart disease,  
high blood pressure and hypothyroidism

## Real Stories. Real People.

I would like to take this opportunity to thank Dr Shroff and the entire team at Shroff Eye Clinic for their efficiency, support and understanding in making my son Abdur Rahims LASIK surgery a great success. This would not be possible without the immense support i received from the team. I am based in South Africa and i arranged for my son who was on holiday in India to have his first consultation and then the procedure and I was totally comfortable to let him do the procedure as he was in the hands of the most wonderful people whom I highly respect and have complete faith and trust in. I completely believe that the ALMIGHTY has chosen Dr Shroff to perform this amazing task with great expertise and humbleness. I pray that the ALMIGHTY always guide and protect you and shower you with His choicest Blessings.

My Daughter Fatima also had her surgery done 3 years ago when she was 21, and it changed her life, no more prescription glasses, no contact lenses, and great recovery, still enjoying her freedom and appreciating the beauty of life.

I would totally recommend the Shroff Eye Clinic and the LASIK, IT IS THE BEST

It has almost been 1 year since I have had my LASIK surgery done and it has been completely life-changing! Initially I was unsure about the procedure, (especially having it done in India since I am from London), but Dr Shroff and his team were fantastic! They answered all of the questions I had and reassured me about the process. The personal touch of speaking to Dr Shroff himself, really helped! He was very kind to also follow-up and see how I was after the operation.

At all times, the team at Shroff Eye Hospital have not hesitated to be as helpful as possible and I will continue to recommend to all that are considering LASIK.

Thank you!
